Vantage Corp Restructures its IT Business and Assets to New Subsidiary Hadō Pte Ltd

Singapore - February 4, 2026 - Vantage Corp (NYSE American: VNTG) (“Vantage” or the “Company”), a shipbroking company providing comprehensive services including brokerage, consultancy, and operational support in the tanker market, today announced the successful reorganization of its IT business and the transfer of related assets to a newly incorporated private limited company in Singapore, Hadō Pte Ltd (“Hadō”).

Hadō is a newly established, wholly-owned subsidiary of Vantage (BVI) Corporation, the Company’s BVI subsidiary. Hadō will inherit the assets and proprietary software under the Company’s IT business, which includes dedicated IT staff, the IP and inherent value of the cloud-based operational control program, Opswiz, and related in-development software. Hadō will continue to focus on the development and eventual commercialization of Opswiz.

This internal reorganization allows the Company’s IT business to:

- Operate with greater autonomy
- Attract a wider pool of specialized IT talent
- Pursue strategic partnerships and raise external capital independently
- Establish a clearer P&L structure to enhance financial transparency for shareholders
- Enable faster innovation and development without constraining or compromising the core shipbroking business
- Maintain tight governance on cybersecurity and data
- Preserve the option to pursue a future formal spin-off or sale of the IT business

Vantage Corp CEO Andre D’Rozario commented: “The decision to restructure Opswiz and the IT business was rooted on finding the most efficient way to accelerate the platform’s development, growth, and eventual commercialization. Our IT business has reached a stage where increased focus, dedicated resources, and additional capital are critical to advance towards its next phase of growth. We believe this strategic restructuring allows the IT business to reach its next growth phase and allow Vantage Corp to reap the future potential benefits of the assets. We believe this strategic move positions both Vantage and the IT business for long-term success by allowing each to execute its respective growth strategy with greater focus and flexibility.”
